Bios

Short Bio

Miloa Scape is a speculative fiction author who gleefully mashes together fantasy, science fiction, and steampunk, with a soft spot for found family and unexpected twists. Armed with an engineering brain and years of gaming experience, she builds immersive, cozy-epic worlds full of wonder, heart, and mischief. When she's not writing late at night with red tea and instrumental music, she's supervised by her three dogs. Her debut project, *Broken Wings*, launches the adventure.

Long Bio

Miloa Scape is a speculative fiction author who has been making up stories for as long as she's been allowed to sit quietly without attracting attention. She writes whimsical, cozy-epic tales that gleefully mash together fantasy, science fiction, and steampunk, with a deep love for found family and the unexpected twist.

Backed by an engineering brain and years of gaming experience, Miloa builds immersive worlds that balance structure and wonder, where gears turn, wings take flight, and nothing behaves quite the way you expect. Her stories are known for their imaginative scope, cinematic flair, and gentle emotional sucker punches.

When she's not writing, Miloa is supervised by her three dogs, Sally, Joy, and Skye. Her best work happens late at night with instrumental music, a cup of red tea, and absolutely no daylight involved.

Her debut project, *Broken Wings*, marks the beginning of a much larger adventure.

BROKEN WINGS BLURB

When a city begins to fall, the truth rises.

On her tenth birthday, Marty Oakley expects comfort and celebration, not a city tearing itself apart. As Velarisca trembles and steam-powered defenses spiral out of control, Marty flees through chaos with her father, only to discover he is not who she believed him to be.

With the city collapsing around them, long-buried secrets surface and a hidden legacy awakens. Caught in a conspiracy stretching from the depths below to the skies above, Marty must face truths no child should ever carry, or lose everything she loves.

Broken Wings is a heartfelt steampunk fantasy prequel filled with wonder, danger, and unexpected adventure.

ENCHANTED SKIES SERIES DESCRIPTION

The Enchanted Skies series is a steampunk fantasy saga about hidden legacies, impossible choices, and the courage it takes to claim the sky when the ground beneath you gives way.

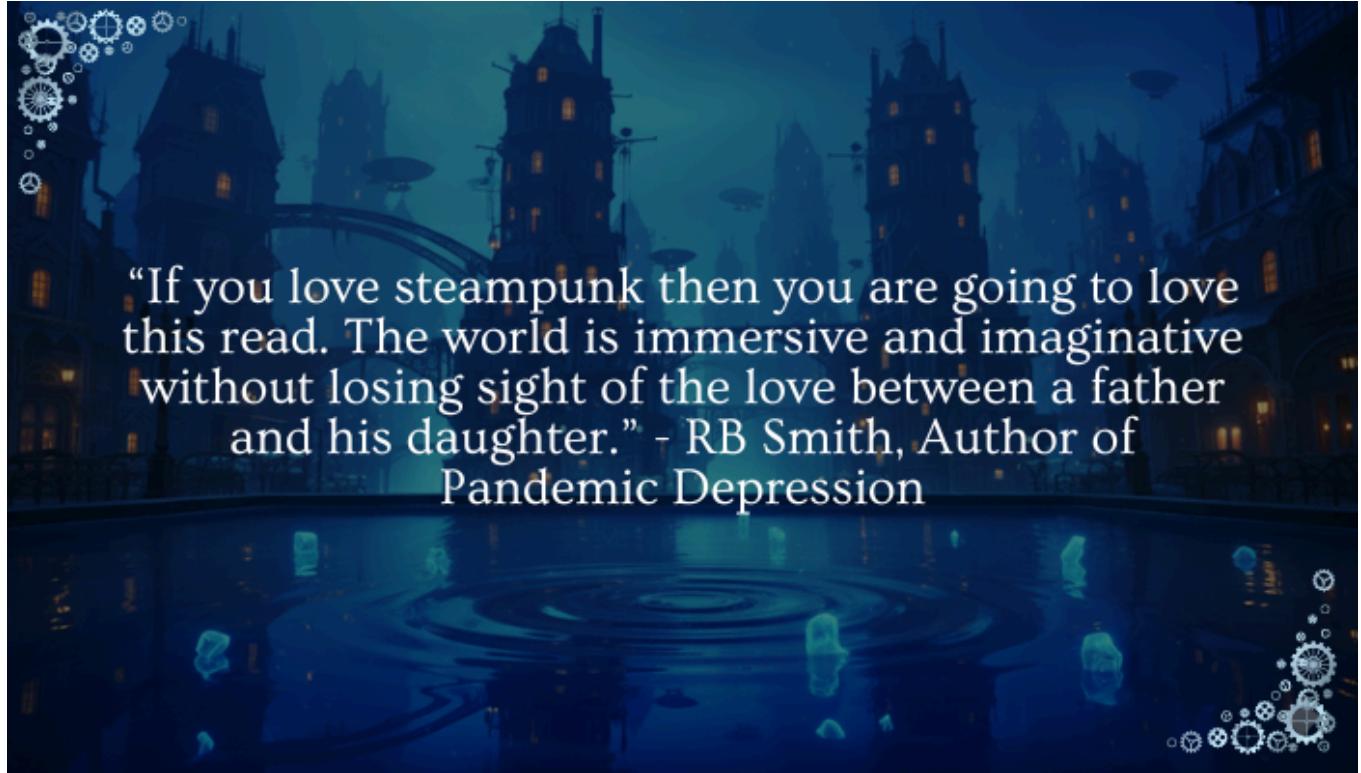

Set in a world of glittering cities, steam-powered marvels, and towering airships, the series follows Marty Oakley, a girl whose life is shaped by secrets long before she understands their weight. What begins as a single day of catastrophe ripples outward into a journey that will change everything she believes about family, loyalty, and freedom.

In Broken Wings, the world cracks open during Marty's childhood, revealing that her city, her father, and her own future are far more fragile and dangerous than they appear. It is a story of survival and loss, of innocence giving way to truth, and of a legacy left unfinished.

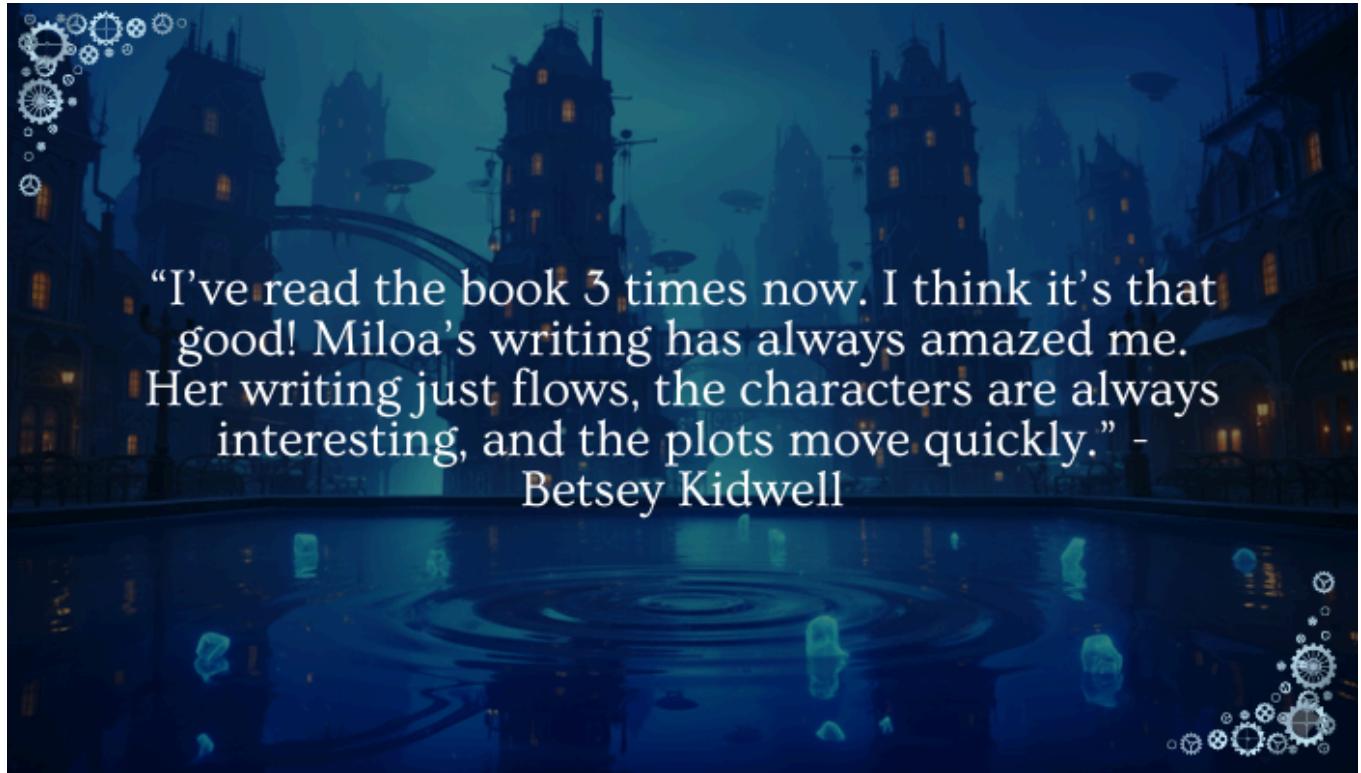

Wings of Steel carries that legacy forward as Marty comes of age in a harsher world, one ruled by power, politics, and the promise of flight. Thrust into the rigid hierarchy of the Airfleet, she must navigate betrayal, moral compromise, and the cost of obedience while deciding what kind of person she is willing to become. As threats rise from both the skies and the shadows below, Marty learns that freedom is never freely given. It must be earned, protected, and sometimes fought for.

Blending epic adventure with emotional depth, the Enchanted Skies series explores found family, chosen paths, and the resilience required to keep moving forward when everything familiar has been stripped away. These are stories about daring to hope, daring to fly, and daring to break the rules when the world insists you stay grounded.

Reviews

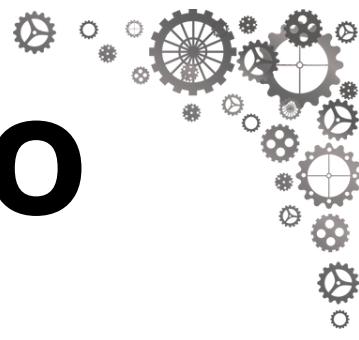

“If you love steampunk then you are going to love this read. The world is immersive and imaginative without losing sight of the love between a father and his daughter.” - RB Smith, Author of Pandemic Depression

“I've read the book 3 times now. I think it's that good! Miloa's writing has always amazed me. Her writing just flows, the characters are always interesting, and the plots move quickly.” - Betsey Kidwell
